

### Objective

I am interested in a challenging software development opportunity in an environment where innovation, education and creativity are valued. I have been passionate about the development of robust system infrastructure, with consideration of customer needs, functionality, latest technology and programming standards. I have solid experience in troubleshooting and problem solving. I am a fast learner, a strong team player with excellent social skills to interact with individuals.

### Professional Summary

- **3+ years** of software design experience in developing enterprise wide.
- Experience in both **Client Side and Server Side Programming**.
- Background in all phases of software engineering including **Analysis, Design, Coding, Testing**, and Implementation as well as **Agile** Software Development using **Jira** and **Github**.
- Experienced in Object Oriented Concepts, **Java Programming**.
- Front end development skills in **HTML/CSS/JavaScript/JQuery/Angularjs** and **Bootstrap** responsive **web design**.
- Good knowledge and experience with **Spring Boot, Spring MVC, Spring with Hibernate Integration**.
- Experience with the Netflix OSS stack (**Eureka, Zuul**)
- Hands on experience in Restful Web Services with **Spring-REST**.
- Strong experience in web services that include several components like **XML, XSD,WSDL, JAX-RS, SOAP (JAX-WS)**
- Hands on experience in application development **Hibernate framework**.
- Experienced in XML parsers like **JAX-P** using **SAX** and **DOM** and Binding technologies like **JAX-B**.
- Hands on experience **Chatbot with Dialogflow**.
- Interacting with on-site team in getting requirement clarifications, business flows.
- Strong Analytical, Problem Solving and debugging skills with excellent understanding of system development metrics, techniques and tools.
- Ability to learn new technologies with minimal time period.

### Experience details:

- Working as a Associate Projects in Verizon Data Services India Pvt Ltd. on the payroll of **Cognizant Technology Solutions India Pvt Ltd (CTS)**, Chennai from Feb 2019 to till date.
- Worked as a System Analyst in **Shriram Value Service Pvt. Ltd, Chennai** from Jan 2017 to Feb 2019.

### Education qualification:

- Master of Computer Application (**MCA**) from Pondicherry University with 7.8 CGPA.

**Technical skills:**

<b>Languages</b>	Java
<b>J2EE Technologies</b>	Servlet, JDBC
<b>Web Technologies</b>	HTML, CSS, JavaScript , JQuery Bootstrap ,AngularJs
<b>Distributed Technologies</b>	JAX-P, JAX-B, JAX-WS,JAX-RS (Rest API)
<b>Frameworks</b>	Hibernate 5.4.3 , Spring 5.1.8
<b>Database</b>	MySQL , Oracle
<b>Server</b>	Apache Tomcat
<b>Tools</b>	Junit(Mockito), Log4j, Maven, GitHub
<b>IDE</b>	Eclipse , STS

**Project Summary:**

<b>Project #1</b>	Retail Medical Store And Healthcare
<b>Client</b>	Cromwell Hospital, U K
<b>Team Size</b>	6
<b>Role</b>	Role
<b>Tools</b>	JUnit, Log4j ,Maven
<b>Technologies</b>	Java, Hibernate, Spring, Web Service, JAX-WS, MySQL, Design Patterns, Servlet, HTML, Restful API
<b>Duration</b>	Feb 2019 to till date

**Project Description:**

Retail Medical Store And Healthcare - A new approach to healthcare Call Health enables you to access all healthcare services details at your home. If you want to Consulting a doctor, address of diagnostic centers, pharmacy centers, health services all details you get in your home.

## Responsibilities:

- Working in as a developer in a team of 6 developers and one team lead.
- Extensively worked with Java, Spring and Hibernate in application tier. Implementing Design Patterns like Singleton, Service Locator, Strategy Design Patterns.
- Analyzing the design document, Interaction with client, Coding, Unit testing.
- Involved into the group meetings with managers, team members for status updates, issue tracking and knowledge sharing.
- Developed Controllers for different modules.
- Implemented a Responsive web design for the front end using Bootstrap API.
- Worked on Service layer as well as Data Access Layer.
- Used Log4j and commons logging to log errors and info for tracing.
- Interacting with on-site team in getting requirement clarifications, business flows.

<b>Project #2</b>	Shriram General Insurance
<b>Client</b>	Shriram value Service
<b>Team Size</b>	7
<b>Role</b>	Role
<b>Tools</b>	JUnit, Log4j ,Maven
<b>Technologies</b>	Java, Hibernate , SOAP(JAX-WS), Spring Boot, Oracle, Design Pattern,Bootstrap,CSS,javascript,AngularJs
<b>Duration</b>	Feb 2017 to Feb 2019
